

## 2010 PAC 750XL

\$1,500,000

This aircraft is under U.S. registry and is being operated under FAR Part 91 conducting skydiving operations. This aircraft is being maintained in accordance with an FAA Accepted Progressive Inspection Program (FAR 91.409(d)). All required Part 91 inspections and Airworthiness Directives are current. The aircraft is configured with factory installed jump door, interior and exterior jumper hand holds, exterior step and jump lights. Complete logbooks. Fresh overhauled propeller. The engine is on the MORE Engine Maintenance Program which gives it an 8000 TBO.
